

COMPUTER PROFESSIONALS (REGISTRATION COUNCIL OF NIGERIA)

[Established by Act No. 49 of 1993]

INDUCTION OF NEW MEMBERS

Thursday
9th July, 2020

9.00am

ORDER OF PROCEEDINGS>>

National Anthem

Arise O Compatriots
Nigeria's call obey
To serve our fatherland
With love and strength and faith
The labour of our heroes past
Shall never be in vain
To serve with heart and might
One nation bound in freedom
Peace and Unity.

O God of creation
Direct our noble cause
Guide thou our leaders right
Help our youths the truth to know
In love and honesty to grow
And living just and true
Great lofty heights attain
To build a National where peace
And Justice reign

National Pledge

I pledge to Nigeria my country
To be faithful, loyal and honest
To serve Nigeria with all my strength
To defend her unity
And uphold her honour and glory
So help me God

**COMPUTER
PROFESSIONALS**
(REGISTRATION COUNCIL OF NIGERIA)

ADOPTION OF 5G IN NIGERIA: THE TECHNOLOGICAL & REGULATORY CHALLENGES

INDUCTION PROGRAMME

9:00am - 9:05am

National Anthem(to be played from the Centre/Control Room)

9:05am - 9:15am

Welcome Address by the President/Chairman-in-Council, Prof. Charles Uwadia

9:15am-9:35am

Induction Lecture:
The Significance of Professionalism, IT Ethics & Codes of Professional Practices - Dr. Akin Fapohunda

9:35am-10:30am

Induction of New Members: -

- Remarks by the Chairman, RR & C
- Presentation of inductees to the President/Chairman-in-Council by the Chairman, RR & C Committee
- Oath Taking & Formal Admission into the Profession
- Response from one of the Inductees
- Closing of Induction

REMARKS OF THE PRESIDENT/CHAIRMAN-IN-COUNCIL, PROF. CHARLES UWADIA, AT THE INDUCTION OF NEW MEMBERS INTO THE INFORMATION TECHNOLOGY PROFESSION WHICH HELD ONLINE ON THURSDAY 9TH JULY, 2020

The Vice-President/Vice-Chairman-in-Council

President of the **Nigeria Computer Society**

Registrar/Secretary to Council

Distinguished Members of Council here Present

Elders of the Profession

The new inductees

Other invitees

Members of the Press present

Distinguished Ladies and Gentlemen

I am highly delighted to address the new inductees and formally welcome you into the Information Technology profession. First of all, let me congratulate you for your successful admission into the Information Technology profession, the only profession in the world that has impact on all other professions.

As new inductees into this profession, the legitimization of your professional practice in Information Technology starts today and I will want you to make good use of the opportunity by channeling your energy and talents on positive things that would be of benefit to your various organizations and the nation. The task ahead of the profession now is enormous and you are all expected to make your contribution towards taking the profession to loftier heights. This is because the growth of the profession will impact positively on the nation and the vision of the Federal Government as encapsulated in the Change Agenda of the Federal Government.

Given that you are new entrants into the flourishing world of Information Technology (IT), I do not want to take anything for granted regarding your knowledge of the profession. I therefore would like to briefly go through what the **Computer Professionals (Registration Council of Nigeria) [CPN]** is all about.

CPN was established by Act No 49 of 1993. The Act was passed into law on the 10th of June and gazetted on the 9th of August same year. It is a regulatory body charged with the regulation, control and supervision of the computing profession and practice in Nigeria in line with Section 1 (2) of the Act; it is under the supervision of the **Federal Ministry of Education**.

The functions and responsibilities of CPN include, but is not limited to the following:

1. To determine the standards of knowledge and skills to be attained by persons seeking to become members of the computing profession and improve those standards from time to time as circumstances may permit.
2. To secure, in accordance with the provision of the Act, the establishment and maintenance of a register of persons seeking to be registered under the Act to practice the computing profession and the publication from time to time of the list of such persons.

Consequently, the Council is responsible for the following among other things:

- a. Organization, control and supervision of computing practice in Nigeria
- b. Screening of individuals seeking to be registered to engage in the sale or use of computing facilities and the provision of professional services in computing in the country.
- c. Ensuring high computing professional Ethics and Standards.
- d. Creation and sustenance of local and international contacts for our numerous members,
- e. Reduced charges for some specific professional services and facilities.
- f. Determining academic standards in Computer Science, Computer Engineering and other related disciplines.
- g. Accreditation of institutions' courses and programmes as well as evaluation of certificates in computing.

- h. Conducting professional examination in computing.
- i. Opening of Regional Offices covering all the geo-political zones in Nigeria. Our offices presently exist in Abuja, Lagos, Ibadan, Owerri, Port-Harcourt, Gombe, Jos, Kaduna and Yola.
- j. Publication of the Register of Computer Professionals and other professional works like journals, books, magazines and newsletters.

Act 49 of 1993, earlier referred to, makes it mandatory for all persons and organizations seeking to engage, or already engaged, in the sale and/or use of computing facilities, and in the provision of professional services in computing or related computing machinery in Nigeria, to be registered by the Council and licensed to carry out such activities. **The Act makes it illegal to engage in computing and professional practice without satisfying the aforementioned condition-that is, registration and possession of a current valid license.**

Consequently, persons and corporate bodies that are registered and hold current valid licenses, apart from being eligible to carry out their businesses, stand to enjoy several benefits including, but not limited to:

- Elevated professional standing/status
- Protection from the public from exploitation and harassment in the course of performing bonafide and legitimate professional activities.
- Right to use the Council's insignia: individualized seal, crest, plaque, ties, clips and brooches.
- Reduced rates for computing professional books, publications and events.
- Access to and attendance at regular professional programmes like Conferences, Seminars, Symposia, Workshops and **Mandatory Continuing Professional Development programmes (MCPD)** for registered members of the profession.
- Facilitating of Local and International contacts with relevant associations and bodies abroad to facilitate the international mobility of our members.

- Reduced charges for some specific professional services and facilities.
- Our registered members enjoy reciprocal registration with foreign Computer professional bodies abroad

The Council places high premium on ethical conduct of our professionals. We are conscious of the impact that the use of computational machinery and related techniques have on the public, employers, clients and the professionals. This is what informed the introduction of **Code of Ethics and Professional Conduct**. The document details the standards of conduct that are expected from professionals in the Information Technology industry, similar to what obtains in other professions. While Council will protect you in matters that infringe on your rights as members of this noble profession, I want to urge you all to play your role by conducting yourselves in the most ethical manner befitting of a professional in your daily activities.

Please be informed that we have put in place a professional development programme that will enable you to update your knowledge and develop professionally. The Chairman of Registration, **Regulation and Control Committee** will shed more light on this in his speech.

Let me inform you that one of the greatest challenges facing our profession is quackery. By the nature of the profession, which makes it possible for a lot of people to use IT tools in their day to day activities, some people are claiming to be what they are not. Also, those who are not qualified to execute IT jobs are the ones getting it. This is quite absurd and unacceptable to us. Therefore, as professionals, you need to join forces with us in fighting the scourge.

Once again, I welcome you all into the Information Technology profession and wish you the best of luck.

Prof. Charles O. Uwadia, FNCS
President / Chairman-in-Council

SPEECH OF THE CHAIRMAN, REGISTRATION, REGULATION AND CONTROL COMMITTEE OF COUNCIL, PROF. ADESINA SODIYA AT THE INDUCTION CEREMONY FOR THE NEWLY-ADMITTED MEMBERS OF THE PROFESSION HELD ONLINE ON THURSDAY 9TH JULY, 2020

The President/Chairman-in-Council

Vice-President/Vice-Chairman-in-Council

The Deputy President, **Nigeria Computer Society**

Eminent persons here present

The Registrar/Secretary to Council

Distinguished members of the computing profession

Ladies and Gentlemen

I am highly honored and delighted to address you - the new entrants into one of the most dynamic and highly respected profession in the world - the Information Technology profession. Firstly, let me congratulate you for your admission into the IT profession.

As you are aware, our profession is one of the most challenging professions in the world. It is a profession that has an impact on all sectors of the economy. Also, it is a profession that is change driven and change is the present language on everybody's lips in the world today. Nations all over the world commit enormous resources into Information Technology development in order to improve the quality of life of their citizenry. Our country is not an exception. In this regard, Governments at the local, State and Federal level invest huge resources in Information Technology development.

In recognition of the increasing global prominence of Information Technology (IT) and its role as a driver of socio-economic development, the Federal

Government of Nigeria identified the need to put appropriate regulatory mechanisms in place to ensure that growth and development in Nigeria's IT sector occurs within an atmosphere that is devoid of quackery, arbitrary practice and paucity of standards. Accordingly, the **Computer Professionals(Registration Council of Nigeria) [CPN]** was established by Act. No. 49 of 1993 (CPN ACT CAP C22 LFN 2004). CPN is charged with responsibility for the regulation, control and supervision of the computing profession and IT practice in Nigeria; quality assurance in computer education; as well as developing local IT capacity in tune with national and international requirements.

The **Computer Professionals (Registration Council of Nigeria) Act** was passed into law on 10th of June and gazetted on the 9th of August that year. It is a corporate entity that is charged with the regulation, control and supervision of the computing profession and practice in Nigeria. The Council hereinafter referred to as CPN is a Parastatal under the supervision of the **Federal Ministry of Education**.

The Act 49 of 1993, referred to above, makes it mandatory for all persons and organizations seeking to engage, or engaged in the sale and/or use of computing facilities, and the provision of professional services in computing or related computing machinery in Nigeria to be registered by the Council and licensed to carry out such activities. It is illegal to engage in computing and professional practice without satisfying the above condition - registration with CPN.

As new inductees to this profession, the legitimization of your professional practice in Information Technology starts today and I will want you to make good use of the opportunity by channelling your energy and talents on positive things that would be of benefit to you and your various organizations. The task ahead of the profession now is enormous and all of you are expected to make your contribution towards taking the profession to loftier heights. The growth of the profession will impact positively on the nation and will facilitate the realization of the objectives of the Federal Government transformation agenda.

We have designed a professional development programme that will enable you to grow professionally and keep you abreast of new developments in the profession. The **Mandatory Continuing Professional Development Programme (MCPD)** was conceived as a means of re-training and updating members' skills

and knowledge about the latest developments in the industry. The programme is meant for all grades of members and credits will be given for attendance which will be one of the conditions for the annual renewal of practicing license as well as upward mobility of members across the membership cadres. The MCPD is a common feature of all professional and regulatory bodies on the re-training of their registered members. Professional bodies like ICAN, CIBN etc all have various versions of the MCPD. Therefore, I will like you to take advantage of the programme to enhance your professional development.

In addition, we are conscious of the impact of the use of computational machinery and techniques related thereto on the public, employers of labor, clients and the professionals who have made substantial investment in Information Technology. This is what informed the introduction of the **Code of Ethics and Professional Conduct** that detailed the standards of conduct that is expected from professionals in the IT industry as exists in older profession like Law, Medicine, Architecture and Pharmacy etc. You have all appended your signature to the **Letter of Commitment** that goes with the document. What this means is that high standard of good and ethical conduct that will portray you as good ambassadors of the profession is what is expected from you. As provided in the Act that established CPN, the Code of Ethics and Professional Conduct is enforceable and the continued membership of the profession depends on strict adherence to it, while not being member of the profession implies forbiddance from practicing the profession in the country. Therefore, endeavor to be good ambassadors of this profession and thread the path of honor and integrity at all times.

Let me inform you that we have a mechanism for checkmating erring and recalcitrant members that go against the Code of Ethics. **CPN Disciplinary Panel** is the standing Committee that sit and deliberate on reported cases of unethical conduct by members. The Chairman of that panel is vested with a power that is equivalent of that of a High Court judge. The implication of this is that the pronouncement of the panel can only be reviewed by the Court of Appeal. In order to enhance the deliberation of the Committee with appropriate legal framework, the Office of the Attorney-General of the Federation appointed an accomplished legal luminary, **Mr. Tunji Oyeyipo** as the Legal Assessor to the Committee.

I will want to conclude my speech by informing you that as you prepare to join the league of professionals in the IT industry, you must resolve to imbibe and exhibit the virtues of honesty, integrity and truth in your professional dealings. It is only by doing this that you can be a model that is worthy of emulation for members and non-members of the profession for the betterment of the profession and the nation in general.

Thank you for your patience and attention.

GOD bless you all.

Prof Adesina Sodiya

Chairman, Registration, Regulation & Control (RR & C) Committee

INTERNATIONAL CONFERENCE ON EMERGING APPLICATIONS AND TECHNOLOGIES FOR INDUSTRY 4.0

DATE: TUESDAY, AUGUST 11TH TO THURSDAY AUGUST 13TH, 2020

VENUE: ONLINE

PREAMBLE

The advancement of digital technologies and its viral spread in the society is transforming the world economy into an autonomous digital economy with opportunities for national growth. The heart of emerging technologies such as the big data analytics, artificial intelligence, internet of things, cloud computing, robotics, internet of vehicles, blockchain, self-driving vehicles, etc. is data. The fourth industrial revolution (4.0) is a journey to the transformation of the industry to autonomous industry and it will be integrated into the digital economy. Emerging Applications and Technologies for Industry 4.0 is dedicated to addressing the challenges and present strategies for developing autonomous digital economy.

SUB- THEMES:

- Technopreneurship: Opportunities and growth in Digital Economy
- Population Growth and Digital Identity
- The Future University: Academia-industry collaboration and the fourth industrial revolution
- Internet Broadband for an Inclusive Digital Society
- Future of Life: Work balance and living
- Health and future of Healthcare Systems
- Technology in Agriculture and Climate Change
- Convergence of Artificial Intelligence, Blockchain and Machine Learning
- Gender equality, Women and the Digital Economy
- Industry 4.0: Technology governance, Policy and Regulatory framework
- Youth Innovation and Sustainable Productivity
- Cybersecurity: Prevention and Identity Theft
- Internet of All Things
- Security in a Smart Era
- inclusive vs. Disruptive Innovation
- 5G Technology and industrial revolution
